Petition to Protect Fair Elections!

Aloha Legislators and Council Members, in 1978 Hawaii voters created our partial public funding program for elections. This program is now outdated and needs modernizing. The pilot program on the Big Island is successful. Four out of nine candidates on the Big Isle County Council are now publicly funded. These candidates no longer spend time raising money from mainland developers and other special interests who could influence their decision-making. I'm counting on you to protect and enhance this important program on the Big Island! Mahalo nui.

PLEASE PRINT CLEARLY. MAHALO~
